

MEMORANDUM

To : Tenants / Staff / Remisiers of Menara TA One

From : TA Property Management Department

Date : 9th January 2019

Subject : Power Interruption during Electrical Calibration and Servicing

Kindly be informed that there will be an electrical calibration and servicing of electrical components located inside the Tenaga Nasional Berhad (“TNB”), High Tension (“HT”) and Low Voltage (“LV”) rooms of Menara TA One.

This effort is essential as, according to Electricity Regulations 1994, Clause 110(4) by the Energy Commission of Malaysia, calibration and servicing works shall be performed on all electrical components every two (2) years.

During the process, TNB and Generator Set (“Genset”) power supply will be affected.

The supply shut-down times are as follows:

First Power Interruption

Testing of Uninterruptable Power Supply (“UPS”) and Generator Set (“Genset”) supply will be performed on the 9th February 2018 (Saturday) from 11.00am till 11.30am. TNB supply will be shut down throughout the 30-minute duration.

Second Power Interruption

Calibration and servicing works will be performed between 23rd February 2019 (Saturday) 11.59pm and 24th February 2019 (Sunday) 8.00pm. Supply interruption will last for 20 hours.

Please ensure that adequate steps are taken to prevent any operational disruption during the power interruption.

Should there be any enquiries, please contact us at 03-20721277 ext. 7801 (Property Management Department) or ext. 1201 (Security Guard Office).

We regret any inconvenience caused.
