**Subject** : **Misuse of UPS Switch Socket**

---

All offices in Menara TA One are equipped with Uninterruptable Power Supply (“UPS”) system which should only be used for computers and printers. The UPS switch socket outlet can be identified with a red switch as shown in the picture below:

Please be mindful that electricity supply from UPS cost 10% more than electricity supply from regular electricity supply.

Kindly inspect and remove all non-computer devices from the UPS switch socket outlet and move them to switch socket outlet with white switches.
