

JONATHAN QUEK

Jonathan Quek is a renowned entrepreneur, investor, and author, whose expertise in business growth, artificial intelligence, and transformative leadership has made him a sought-after speaker and thought leader. As the founder of Owners Circle, Jonathan has dedicated himself to empowering business leaders and entrepreneurs to achieve massive transformational growth through proven tools and strategies. His hands-on approach and experience in serving close to 3,000 business leaders and entrepreneurs through training and coaching programs make him a trusted authority in the field.

At Owners Circle, Jonathan created the Business Growth Summit, an event that brings together corporate partners such as Microsoft and Shoptline to help business leaders understand the evolving role of AI in the way we work, sell, and manage our businesses. This experience has given him unique insights into the practical applications of AI and its potential to drive success in various industries.

As an investor, Jonathan plays an advisory role in Strive, a company that is taking on the Sales Engagement giants by providing a simple-to-use sales automation tool. Strive is currently integrating with ChatGPT to help businesses create smarter conversations for higher conversions, showcasing Jonathan's commitment to harnessing AI for the betterment of businesses.

Jonathan's diverse background as an entrepreneur, investor, and author, combined with his firsthand knowledge of AI applications and proven track record in helping businesses grow, make him the ideal person to deliver an insightful and impactful talk on the AI revolution. His passion for empowering the next generation of leaders, coupled with his deep understanding of the AI landscape, will inspire and motivate attendees to embrace the opportunities and challenges that AI presents.
