RE : **Cessation of TA@dress System**

We refer to the various Memorandums issued on the above subject.

We wish to reiterate that due to the TA@dress system being outdated as the company that designed it is no longer in existence and we do not have the source codes, it is imperative that the various reports in the TA@dress system be moved to the TCPro system.

The various reports are now available in the TCPro system under the "Web Report" section. The procedures to follow to access the reports can be found in the attachments to our memo dated 29 October 2015 which is also available in the TCPro "Web Report" section. Should you encounter any difficulties, please contact our IT helpdesk at extension 2000.

We wish to remind that with the cessation of TA@adress, you will no longer have access to your email bearing TA's domain eg. **ahmad@ta.com.my**. As such, you would need to create your own email address under either Yahoo or Gmail.

Thank you.
